LOVE YOUR SMILE

We want your smile to be natural and beautiful. If you feel your smile needs to be improved further, there are a wide variety of choices the modern cosmetic dentistry has to offer. You may need a simple teeth whitening or a few veneers or a smile makeover. Talk to us, we will work within your budget to meet your expectations.

Dr. Jayashree Kyatam D.D.S

At Austin Primary Dental, we are committed to providing the excellency in dentistry, to win our patients confidence and loyalty. At the same time, we count on our patients to help us promote and build our practice. We want our patients to refer us to their friends and relatives. In return, we reward you by adding \$25 credit to your account each time you refer someone to our practice and that person becomes our patient. We also give a \$25 credit to the person you refer to us. There is no limit, you can refer any number of friends or relatives and each time we add a \$25 credit to your account, which you can use at your next visit. Also, the person you refer gets to use the new patient coupon when they are in the office.

Your Name: _____

Name & Phone Number of New Patient _____

When it comes to the dental health, avoid first, prevent it, then fix it. Oral health surveys indicate advanced gum disease affects about 12% of adults. About 53 million americans have untreated tooth decay. One-fourth of U.S. adults aged 65 years and older have lost all of their teeth. More than 7,000 americans develop oral cancer each year. Most of these problems can either be completely avoided or prevented with a simple oral hygiene measures and regular cleanings and oral exams. As an old adage "A stitch in time saves nine," early diagnosis has much better success to prevent and fix the problem in its infancy. With proper care, your natural teeth are suppose to last until you get older. At Austin Primary Dental, we strongly encourage our patients to have their teeth cleaned and examined on a regular basis to ensure their teeth stay healthy and last longer. Remember, get regular dental exams and your teeth (and pocketbook) will thank you!

CONTROL THE COST

"An ounce of prevention is worth a pound of cure." If a simple cavity is identified at its very early stage, it will only cost 1/4th of a crown. Early diagnosis is the key to control the cost of your dental health. For your convenience, we also offer 0% interest financing and discounts to cash patients.
