

# To ALL of Our Wonderful Patients

Diane G. Nogalo,  
D.D.S.

Here we are again, a fresh start to a new year. Resolutions are made, changes are starting to be incorporated into our daily lives, and all of us are welcoming some sort of a new beginning.

And here at Dr. Nogalo's office we are doing the same. Approaching our eighth year, we are gearing up for our best year yet, we're sure of it. We are so excited to see what 2012 has in store for us. And we are eager to see what lies ahead for you in the coming year as well.

Holidays are a time when we are ever mindful of our blessings. And after finishing up our seventh year and turning the corner to our anniversary in a few short months...we are very thankful. We wanted to take the time to thank our patients who have made our soon-to-be eight years flourish.

Thank you...

for welcoming us into your lives and telling your stories.

Thank you...

for allowing us to grow by trusting us with your friends and families, and referring your closest loved ones.

Thank you...

for allowing us the opportunity to watch your fantastic kids become such great individuals. They are growing up so fast in front of our eyes. In a world where you turn on the TV or radio and hear negative things, it is refreshing to see so much hope for our future.

Thank you...

for the relationships that we have built over the years and trusting that we have your best interest at heart.

Thank you...

for those that drive a ways to come to our office and make any sort of sacrifice.

**To every single one of you.**

Diane G. Nogalo D.D.S., Inc. wants you to know that you are the reason we come to work every day and enjoy our job. When you surround yourself with good people, good things happen. Thank you for being those people. We hope we have many more years and stories to share. Thank you so much.

We here at Beyondyourmile.com are declaring a  
**"WAR ON DEBT" for 2012.**

Our hearts are filled with the stories of our clients and their struggles through this economy. We have been introduced to information that is helping people annihilate their crippling debt.

**You will discover:**

**How to pay off your debt WITHOUT making any more money than you do right now**

- ◆ How to use the simple debt elimination chart to keep track of your personal War on Debt™
- ◆ Step by step instructions to bring your accounts down to zero
- ◆ A proven debt annihilation formula that has already helped thousands of people pay off millions of dollars in debt
- ◆ The difference between wise and foolish spending
- ◆ How to uncover excess spending and use that money to quickly pay down your high interest accounts
- ◆ The reasons why it is so important to get out of debt now before the current economic conditions do you in.
