

## ***We Understand Our Patients and Their Financial Concerns***

All our patients deserve the best dental care possible. We are here to assure you everyone does in fact receive the best dental care in our practice. We realize however, this care may be costly and not completely covered by your insurance carrier. In cases where treatment may be extensive, we are pleased to be able to offer our patients two options that may enable them to have the necessary treatment done with a payment plan that will fit their financial needs.

**CareCredit and United Medical Credit** have allowed many of our patients to complete their dental treatment which otherwise would have been left untreated due to finances. Both **CareCredit and United Medical Credit** make it easier for patients to help manage their out of pocket dental expenses.

If you have been avoiding the dentist due to money and do not feel you have the financial resources to have treatment, **CareCredit or United Medical Credit** may be the answer. Please visit their website or contact them by phone to see if they can help you “**receive the dental treatment you deserve**” for optimum oral and physical health.
