DENTAL INSURANCE AND FINANCIAL INFORMATION

Payment :

Please be aware that the payment of accounts is the responsibility of the patient or parent/guardian, if the patient is a minor. We accept the following methods of payment : checks, cash, VISA, MasterCard, Discover, or CareCredit (please ask for details).

Dental Insurance :

A dental insurance policy is a contract between you, your employer and the insurance carrier. If you have any questions regarding your plan, we ask that you contact your carrier prior to your appointment regarding the specific details of your plan. We will also assist you in any way possible to resolve insurance issues.

We are happy to submit claims for you. Our office accepts assignment of benefits from many plans, with the understanding that you, the patient, assume responsibility for any unpaid balance.

Dental Insurance Facts :

- Dental Insurance IS NOT meant to be a pay-all. It can only be of assistance in paying for necessary dental care.
- You may receive notice from your insurance carrier thating that the dental fees are higher than they consider reasonable and customary. How does an insurance company determine this ? They may survey a geographic area, find the average fee for each procedure, take 90% of that fee, and consider it customary. MOST doctors' fees are considered higher than average by the insurance carriers.
- Please be advised that many insurance carriers tell their subscribers that procedures will be covered up to 80%, or covered at 100%. They do not, however, clearly specify plan allowances, annual maximums, or limitations. This can be misleading.
- Some routine dental services are not covered by all insurance plans.

Consent for Services

As a condition of your treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from the patients for the costs incurred in their care and financial responsibility on the part of each patient must be determined before treatment.

All emergency dental services, or any dental services performed without previous financial arrangements, must be paid for in cash at the time services are performed.

Patients who carry dental insurance understand that all dental services furnished are charged directly to the patient and that he or she is personally responsible for payment of all dental services. This office will help prepare the patients insurance forms or assist in making collections from insurance companies and will credit any such collections to the patient's account. However, this dental office cannot render services on the assumption that our charges will be paid by an insurance company.

I understand that the fee estimate listed for this dental care can only be extended for a period of six months from the date of the patient examination.

I grant my permission to you or your assignee, to telephone me at home or at my work to discuss matters related to this form.

I have read the above conditions of treatment and agree to their content.
