

Dear Patients and Friends:
Spring is just around the corner!
We want to personally thank you
for being patients at **Baker**
Cosmetic & Family Dentistry.

As you probably know, our number one goal here is to provide the absolute best dental care available in a professional yet comfortable setting. We hope you will agree that we are meeting this goal.

Did you know that new patients generally find out about our practice through word of mouth from patients like you? We would like to grow our patient base with people who would be interested in receiving the type of dental care that you have become accustomed to.

Our way of thanking you for **Three** referrals (those who make an appointment and have their first visit with us) is your choice of either: One Opalescence Whitening kit (includes custom trays and product) !--Or-- one Sonicare Flexcare Plus toothbrush!!

There are a few easy ways to introduce people you know to our practice.

1. Go to our website at www.marthabakerdds.com
2. Call our office at **952-926-7696**
3. Ask them to “**like**” our **Facebook** page. We have regular updates on our practice and great contests!!

News for the New Year:

Our progress benefits you, our patients!

Dr. Baker is placing Nobel Biocare **Dental Implants** as well as restoring already placed implants with beautiful state-of-the-art crowns that impeccably match your other teeth. We offer **free consultations** for anyone you might know who is missing teeth or will need to have a tooth replaced.

Digital X-rays are Here!

No more film! No more waiting! 80% less radiation! Better diagnosis.

Magnification:

Dr. Baker has added 4.0 magnification to do her exams so she can detect failing fillings and cavities before they get larger and create more trouble.
