Dental Insurance Policy Review

Please be aware that Dental Insurance is a contract between you, your employer, and the insurance company. It is designed as a company “benefit” to **help** you defray costs from dental work, but almost never **completely** pays for any necessary work. We submit claims to the companies as a courtesy to you—this is actually something that fewer and fewer offices are doing because of the time and financial costs involved.

We work very diligently to obtain accurate information as to your benefits, but you are ultimately responsible for understanding the benefits and limitations of your insurance policy.

Dental insurance companies may also substitute payment of any “White” or Composite filling with “Silver” or Amalgam fillings. Similarly, they could substitute payment of all-metal crowns for porcelain (matching) crowns. The insurance companies will often not actually disclose that composites are “not covered”, only that an “alternate benefit is applied”, meaning that they simply pay for the cheaper material. The difference between these materials is more than simply cosmetic, but this is beyond the scope of this document. These sorts of switches are known as “Allowances”. A brief summary detailing some of these insurance company practices is available from Lucy if you would like to learn more about how insurance companies really work.

In these cases, the difference in cost between the service provided and what is reimbursed is the **responsibility of the patient**. We will do our best to let you know, as accurately as possible, what this amount will be prior to the appointment—but **please keep in mind that this is only an estimate and they may pay more or less than this amount**. This often happens if other claims are pending and they do not recognize this when we call them for up-to-the-minute information. This could result in a small credit on your account or an additional bill for the difference.

Please note that we will do everything in our power to maximize your utilization of benefits and make sure that they pay every penny to which you are entitled!

The Doctor, however, will not allow the insurance company, who will never see you in person, determine what you need and usurp his medical judgment.

I acknowledge receipt of the Essex Street Dental Medicine insurance policies and understand that, when appropriate, I am responsible for these differences in cost between services actually rendered, and what insurance companies arbitrarily decide.
